- ♦ Must be installed to the latest electrical safety regulations, consult a qualified electrician if you have any questions.
- ♦ Maximum input voltage 230V AC 50HZ
- ♦ Ensure all electrical connections are tight with no loose strands, including factory made connections.
- ♦ Luminaire must not be covered by flammable or insulation material.
- ♦ These luminaires are IP44 rated, Installer must consider this when installing.
- ♦ Ensure there is adequate free air circulation around the fitting. It is up to the installer to consider fire risk and take appropriate precautions.
- ♦ These products must be earthed
- ♦ Ensure all electricity is switched off before you commence maintenance or installation.
- ♦  If mounted on flammable surfaces.

Product Codes	SWL211
Voltage	230V
Wattage	25W
Lamp Type/Base	G9
Length	110mm
Width	100mm
Projection	126mm

INSTALLATION

1. Ensure mains is turned off before you commence installation
2. Select required position for luminaire. Ensure this is free from existing wires, pipes etc.
3. Remove base from packaging. Using screw driver remove screws giving access to the base.
4. Feed mains cable through base support bracket and rubber seal.
5. Mount base into position on wall.
6. Connect supply leads: Brown or Red (L), Blue or Black (N), Green/Yellow (E). **This fitting must be earthed**
7. Ensure there are no exposed conductors, loose strands or trapped insulation. Seal any cable entry or screw holes with silicon sealant to maintain IP rating.
8. Reattach fitting to mounting base
9. Insert lamps and fit Small Glass diffuser (screw thread)
10. Insert large glass diffuser over lamp diffuser and fix into position using bracket provided.
11. It is recommended to consult an electrician before switching on power.

GUARANTEE

- ♦ HUGO provides warranty for 2 years for these fittings against defects in the material and/or workmanship. This period commences from the date of delivery and is only valid if the fitting is installed in accordance to the instructions provided and to local regulations. If defective material or workmanship is found within the warranty period, it must be returned to the supplier with details and proof of the original delivery and purchase dates. Any additional costs including labour must be submitted in writing and approved by HUGO prior to remedial work being initiated.
- ♦ Warranty becomes null and void if components have been tampered, altered or modified in any way. Damage to fittings by fire, water or similar will revoke the warranty.
- ♦ HUGO reserves the right to improve, modify or update the designs without prior notice.
