240V

### IMPORTANT INFORMATION

- ♦ **CAUTION:** Luminaires and their auxiliary equipment may pose a risk of fire or damage to property if not installed or maintained correctly.
- ♦ Must be installed to the latest electrical safety regulations, consult a qualified electrician if you have any questions.
- ♦ Maximum input voltage 240V AC 50HZ
- ♦ Ensure all electrical connections are tight with no loose strands, including factory made connections.
- ♦ Luminaire must not be covered by flammable or insulation material.
- ♦ These luminaires are IP54 rated, Installer must consider this when installing.
- ♦ Ensure there is adequate free air circulation around the fitting. It is up to the installer to consider fire risk and take appropriate precautions.
- ♦ These products must be earthed
- ♦ Ensure all electricity is switched off before you commence maintenance or installation.
- ♦  If mounted on flammable surfaces.
- ♦ Fittings should be cleaned every 3 month with appropriate cleaner to prevent corrosion

Product Codes	SWL801	SWL802	SWL803	SWL811	SWL812
Voltage	240V	240V	240V	240V	240V
Wattage	35W	35W	2x35W	35W	2x35W
Lamp Type/Base	GU10	GU10	GU10	GU10	GU10
Length	83mm	90mm	168mm	115mm	80mm
Width	56mm	68mm	56mm	60mm	150mm
Projection	90mm	110mm	105mm	68mm	72mm

### INSTALLATION

1. Ensure mains is turned off before you commence installation
2. Select required position for luminaire. Ensure this is free from existing wires, pipes etc.
3. Remove the back of the fitting with Allen key supplied. Check factory made connections to ensure they are tight.
4. Position the back plate to desired location, considering the mains cable entry point.
5. Connect supply leads: Brown or Red (L), Blue or Black (N), Green/Yellow (E). **This fitting must be earthed**
6. Ensure there are no exposed conductors, loose strands or trapped insulation. Seal any cable entry with silicon sealant to maintain IP rating.
7. Fit fitting to back plate.
8. It is recommended to consult an electrician before switching on power.

### GUARANTEE

- ♦ HUGO provides warranty for 5 years for these fittings against defects in the material and/or workmanship. This period commences from the date of delivery and is only valid if the fitting is installed in accordance to the instructions provided and to local regulations. If defective material or workmanship is found within the warranty period, it must be returned to the supplier with details and proof of the original delivery and purchase dates. Any additional costs including labour must be submitted in writing and approved by HUGO prior to remedial work being initiated.
- ♦ Warranty becomes null and void if components have been tampered, altered or modified in any way. Damage to fittings by fire, water or similar will revoke the warranty.
- ♦ HUGO reserves the right to improve, modify or update the designs without prior notice.
